*Annual contribution amounts include all contributions made to an HSA. If you have an HSA somewhere else, you can transfer that HSA balance (which will not count toward the HSA contribution maximum) to your new HSA. And you can make a one-time, tax-free transfer from an individual retirement account (that amount will count toward your maximum). And if you're age 55 or older, you can contribute up to another \$1,000 annually.

**The maximum contribution limits are subject to change annually. Employer plans may differ. See your employer's Summary Plan Description for specific details about your plan.
